EDUCATION

DE LA SALLE UNIVERSITY – MANILA

Bachelor of Science in Computer Science Major in Software Technology

September 2022 - September 2026

- Cumulative GPA: 3.50/4.00
- Honors and Awards: 1st Dean's List (3.4 GPA and above)
- Relevant Courses: Object-Oriented Programming, Web Development, Data Science, Machine Learning, Database Management, Mobile App Development

WORK EXPERIENCE

DATA ENGINEER INTERN

Conifer Health Solutions

JUNE 2026 - August 2026

- Built 20+ stored procedures and ported 10+ from T-SQL to BigQuery to populate Power BI reports, cutting manual report-building time for the Business Analysts team and accelerating report delivery
- Automated scheduled report refreshes via Google Cloud Workflows and Cloud Functions, eliminating manual refresh work, reducing refresh errors, and enabling more frequent, reliable reporting
- Diagnosed and resolved critical data/reporting incidents on an ad-hoc basis, keeping reports reliable for stakeholders and preventing delays in downstream business decisions
- Documented data lineage for key reports using Lucidchart, improving visibility into data sources and dependencies for the Business Analysts team
- Delivered 13 story points per sprint, consistently exceeding the team's average of 8, in a Scrum environment

SOFTWARE DEVELOPER INTERN

Advanced Research Institute for Informatics, Computing and Networking - DLSU

MARCH 2026 - June 2026

- Migrated WeCycle's backend from Firebase to a self-hosted NestJS/PostgreSQL stack, eliminating recurring Firebase infrastructure costs while transferring 84+ production rides and user records with zero data loss
- Built an offline-first mobile system (Mapbox map packs, offline geocoding, local ride recording) and a background sync manager that queues and uploads rides, annotations, and media once connectivity returns, keeping the app fully usable in zero-signal areas
- Found and closed a cross-user data access gap during code review by building **AuthGuard** middleware with per-user query isolation, preventing the issue from ever reaching production
- Co-presented WeCycle at a private mobility-tech showcase to 20+ attendees, primarily bikers and commuters, demoing the offline-first and crowdsourced hazard-reporting features

REPORTING SPECIALIST

MSB Solutions

January 2026 - March 2026

- Designed and developed financial and operational reports using SQL Server Reporting Services (SSRS) within Microsoft Dynamics 365 Finance & Operations, enabling data-driven business decisions and improving visibility into key performance metrics.
- Collaborated with stakeholders to gather reporting requirements and translate business needs into accurate, structured report layouts
- Identified and flagged data discrepancies across D365 modules, proactively resolving issues to ensure reporting accuracy
- Supported ad-hoc analytical requests and synthesized findings into clear summaries for decision-makers, enabling faster responses to emerging business needs and operational questions

FINANCIAL PARTNERSHIPS - ANALYTICS AND AUTOMATION INTERN

Shopee Philippines Inc

September 2025 - February 2026

- Built and presented dynamic dashboards tracking GMV and month-over-month growth to bank partners and leadership, translating complex campaign data into actionable insights that optimized partnership performance.
- Conducted market and competitor research to identify trends and opportunities, synthesizing findings into concise presentations delivered to senior leadership to support strategic decision-making
- Collaborated with BI and Operations teams to define data requirements and streamline reporting processes, translating business needs into actionable technical specifications for campaign tracking and partnership performance analysis.

- Designed and maintained 5+ custom automation solutions using Google Apps Script that eliminated manual data copying, formatting, form auto-fill, and lookup tasks, saving the team 10 hours/month in processing time while maintaining 100% accuracy across all filings.
- Managed bank partnerships for Shopee's major doubles events with 10-15 major Philippine banks, monitoring campaign performance daily and resolving billing discrepancies and data mismatches throughout campaign lifecycles.
- Processed high-volume filings including billings, contracts, DTI permits, asset requests, campaign decks, and slot allocations with strict adherence to varying SLAs for each filing type, ensuring timely documentation and compliance

ORGANIZATIONAL ROLES

Junior Officer for Human Resource Development

September 2023 - July 2024

La Salle Computer Society, De La Salle University – Manila

- Facilitated flagship organizational event with 50+ members, demonstrating ability to coordinate large-scale initiatives and manage cross-functional collaboration
- Organized workshops and events to promote professional development, showcasing project management and stakeholder engagement skills

Research and Academics Executive

December 2023 - April 2024

Catch2T26 – University Student Government, De La Salle University – Manila

- Maintained open communication channels with students, addressing queries and sharing critical updates, demonstrating strong communication and customer service.

CERTIFICATIONS

AI Fluency: Framework & Foundations

Anthropic Education

Issued March 2026

Data Analytics for Business Professionals

LinkedIn Learning

Issued August 2025

Data Science Professional Certificate by KNIME

KNIME

Issued August 2025

PROJECTS

Bank Insights: EDA & Power BI Dashboard | Python · Pandas · Power BI

- Conducted comprehensive EDA on banking data to identify key factors affecting loan approvals and deposit trends.
- Developed an interactive Power BI dashboard enabling decision-makers to pinpoint growth opportunities.

TECHNICAL SKILLS

Programming Languages: C, Python, Java, R, JavaScript, SQL

Technologies: Git/Github, MySQL, MongoDB, Express.js, Node.js, Jupyter Notebook, Cypress, Android Studio, Power BI, React, REST API, BigQuery, Azure, AWS, Google Workflow, Google Cloud Run,

SOFT SKILLS

- Strong Communication
- Collaborative
- Effective Problem-Solving
- Efficient Time Management
- Adaptable & Flexible
- Critical Thinking
- Strategic Planning
- Works Well Under Pressure
